

ID: ticketing

Textual Workflow Description: Get the last email from my email box. Then analyze the content of the email by assigning a category to the email. If the category falls under the hood of an enterprise, forward the email to nick.retier@hotmail.de. Else, end the process.

Workflow Representation in BPMN and Text

Required iterations: 1

analyze content of email -> EXCLUSIVE: categorize email
-> get last email from my email box
get last email from my email box -> analyze content of email
EXCLUSIVE: categorize email -> forward email to nick.retier@hotmail.de [condition='category is enterprise']
& End [condition='category is not enterprise']
forward email to nick.retier@hotmail.de -> End

Execution of the Workflow in Text

'not enterprise'
