# Test Run 2024_08_20-13:54:09

## ID: negative_receipt

**Textual Workflow Description:** Initiate the preheating of the oven to 350°F. In a capacious mixing vessel, amalgamate flour, granulated sugar, and leavening agent. In a separate container, vigorously blend eggs, dairy, and liquefied butter. Integrate the liquid mixture into the dry components, then transfer the resultant batter into a prepared baking dish. Subject the dish to baking for 30 minutes or until a golden hue is achieved.

**Workflow Representation in BPMN and Text**

**Required iterations: None**

ModellingError: Given textual workflow is not a business/IT process

**Execution of the Workflow in Text**
